

**State of Ohio**  
**State Energy Program – American Recovery and Reinvestment Act of 2009**

**ACTIVITIES**

Agriculture  
Alternative Fuels  
Bioenergy and biobased products  
Biomass Power  
Brownfields to solar fields  
Building America  
Carpools, vanpools and ridesharing\*  
Climate change planning  
Combined heat and power  
Commercial buildings  
Curriculum development  
Demand reduction  
Distributed energy generation  
Energy and environment  
Energy building codes  
Energy consumption and price statistics  
Energy emergency planning  
Energy use and modeling  
ENERGY STAR  
Energy storage, e.g. batteries  
Federal, state and local facilities including colleges and universities  
Financing energy programs; i.e, revolving loan programs for efficiency and renewable energy  
Funding third party entities to purchase and deploy efficiency and/or renewable energy technologies  
Fuel cells  
General energy efficiency for industry  
Geothermal  
Green power programs  
Home energy ratings  
Industrial assessments for carbon mitigation opportunities  
Industrial processing  
Industries of the future  
Innovation for commercialization  
Lighting\*  
Market transformation including engaging banks in energy financing  
Market transformation including utility collaborations for efficiency and renewable energy  
Manufacturing capacity expansion and attraction for efficiency and renewable products  
Motors and other industrial systems  
Performance contracting  
Policy and energy legislation  
Procurement of efficient products\*  
Procurement of renewables  
Program support  
Public information  
Residential buildings  
Right turn on red\*  
Schools  
Solar power  
State energy strategic plans  
Thermal\*  
Transmission and infrastructure  
Transportation alternatives  
Waste management and recycling  
Wastewater management – waste to energy & efficiency improvements  
Water systems  
Wind energy

\*- Mandatory Activities
