## Department of Development

**Fed Strickland**, Governor

**Lee Fisher**, Lt. Governor  
Director, Ohio Department of Development

Dear Fellow Ohioan:

Ohio exports for 2008 grew by nearly 7 percent over the previous year, making Ohio the seventh-largest exporting state in the nation. The numbers released in February 2009 by the U.S. Department of Commerce International Trade Administration show that Ohio exports grew to more than \$45 billion in 2008, a 6.87 percent increase from the previous year. Ohio's continuous export success means that we are the only state to increase exports every year for the past 11 years.

This annual report on Ohio exports provides summary detail on the countries and products that Ohio companies shipped to during the previous year. Canada and Mexico are Ohio's largest trading partners, comprising 53 percent of the total value of shipments in 2008. Eight commodity groups ship more than \$1 billion each across the globe. Machinery, Vehicles, and Electrical Machinery are Ohio's leading product groups with \$23.8 billion in shipments.

Ohio's diverse industry base makes our state a global market leader. This diversity is complemented by a business environment that facilitates professional success and an environment outside the office that allows for personal fulfillment. Ohio's unique combination of life and work amenities makes our state a place where you can achieve your professional and personal aspirations.

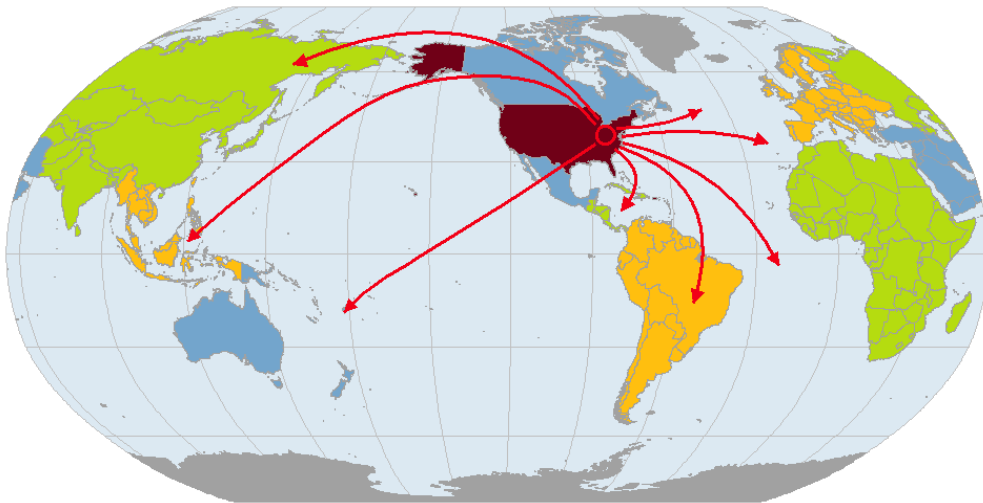

I invite you to review the attached report to further your understanding of Ohio's large and diverse economy. We welcome your input. If you have any questions or comments, please contact John Magill, our Department's Chief Strategic Officer at (614) 466-2116.

Sincerely,

**Mark Barbash**  
Interim Director  
Ohio Department of Development
