

Minority Business Assistance Center Key Performance Measures Definitions Attachment #6

The Key Performance Measures (KPM)s provide the core measurements by which the Division evaluates the overall effectiveness of the MBACs. The KPMs help align the vision and mission of the MBAC with clients.

The KPM reporting will come directly from the client relationship management system based on the client information entered.

While all KPMs and requirements are important to the development of the minority businesses, the following are significant goals that are part of the strategic mission of Development and are closely monitored. Applicants should take great care to analyze their capability to successfully meet all KPMs.

Performance Outcomes – Services documented within the Grant Agreement
