Request for Pre-Application Meeting

Goal:
Potential applicants for the OWDA Alternative Stormwater Infrastructure Loan Program (ASILP) are invited to arrange a Pre-Application meeting with the Office of Community Assistance (OCA), in the Ohio Development Services Agency (ODSA). Early and continued communication with OCA, beginning with these meetings, will allow participants to receive technical assistance on their projects, including financial, environmental and strategic advice. This will enable the applicant to better understand the Alternative Stormwater Infrastructure Loan Program application process and to prepare complete applications. These meetings are mandatory for funding and will permit interested parties to meet with OCA to discuss issues related to Alternative Stormwater Infrastructure Loan Program projects and implementation.

Agenda:
Each potential applicant will be asked to present information on the project, which will be followed by a discussion period and a visit to the project site.

Pre-Application Form:
Interested parties must register using the meeting request form. The meeting request form, along with Program Policies and Guidelines, are located on the program webpage: http://development.ohio.gov/cs/cs_altstormwater.htm. Staff from Redevelopment will coordinate with the contact listed on the form to schedule the meeting.

Consultants and development partners are encouraged to attend this meeting; however, a representative from the potential applicant must be present.

E-mailed or mailed copies of the registration form are accepted. OCA will schedule meeting times and send confirmation via e-mail ONLY after receiving the meeting request form.

For additional information or submission of a meeting request form, please contact Annie van Blaricom from the Office of Community Assistance:

ODSA, Office of Community Assistance

PRE-APPLICATION MEETING REQUEST FORM

DATE: ________

Desired Meeting Date: ___________________________

Desired Meeting Location: __________________________

Applicant Information

Applicant Name: __________________________________

Applicant DUNS # (if known): __________________________

Contact Person: __________________________________

Contact Address: __________________________________

Contact Phone: __________________________

Contact E-mail: __________________________________

Project Name: __________________________________

Site Information

Property Owner: __________________________________

Project Address: __________________________________

County: __________________________________

Parcel(s) Identification Number (PIN): __________________________

Size of Property in Acres: __________________________

Census Tract(s);
Ohio House District;
Ohio Senate District;
US Congressional District

Longitude/Latitude Coordinates to entrance of property: __________________________
So that Ohio Development Services Agency (ODSA) can best address your concerns and answer
questions regarding your project at the meeting, please answer the following questions as completely as
possible.

1. BRIEFLY describe the alternative stormwater infrastructure project and any specific questions to be
   addressed during the meeting.

2. If the alternative stormwater infrastructure project is part of a larger development or redevelopment
   plan for the property, please explain the plan including the proposed end use and what economic
   benefits will result from the project (jobs, tax revenue, etc.).

3. Describe the current or past use of the property and its location (in relation to landscape features; i.e.
   near a river or common roadway).

4. Is the site within an area covered by an approved or endorsed plan related to stormwater, such as a
   Balanced Growth plan, Watershed Action Plan, or Total Maximum Daily Load Study?

5. What is the estimated total project cost? What will be the requested amount from the OWDA ASILP?
   
   Total Project Cost $__________________   OWDA ASILP Request $_____________

6. What are the sources and amounts of funds available for this project?

7. Does the applicant own the site? If the applicant does not own the site, do they have access to it?

8. What environmental improvements will result if the project is completed?
NOTE: ODSA staff will be in contact with the individual listed on this form to schedule the meeting. Your environmental consultant and development partners are welcome to attend this meeting; however, a representative from the community (the potential applicant) must be present.

</table>

- What name should I give to my project?
The name should be relevant to you, the borrower; it can be the former operational name, the former owner’s name or the name of the future development.

- How do I find the PIN?
Parcel Identification Numbers or PIN's are found on the deed or auditor’s property card. It is a 10-13 digit number and is generally different than the deed number.

- How do I find the property acreage?
This information can be found on the property deed within the legal description of the property; either at the very beginning or at the end of the description. The property size can also be found on the auditor’s property card.

- How do I find the Longitude/Latitude?
This information is necessary for the Urban Development Division's database. This information can be found in an assessment document for the property or by utilizing a GPS device (geographic positioning system) or a GIS system (geographic information system).

- What is included in Total Project Cost?
Total Project Cost means all dollars expended (or to be expended) at the property for activities to complete the entire green infrastructure project. Total Project Costs may include demolition activities, professional services, and infrastructure activities.
